

Fruit-Juices
In Vials

Jiffy-Jell flavors come sealed in glass—a bottle in each package. Each is rich essence, condensed from fruit juice.

Add boiling water, then this essence, and you have a real-fruit gelatin dessert, and at trifling cost. You should know this fruity dainty.

COAL MINERS WILL
ASK HIGHER WAGES

INDIANAPOLIS, March 19.—Wages to be asked by the coal miners of America at their next conference with the operators were to be decided on today by a subcommittee of the general policies committee. The subcommittee was appointed by Frank J. Hayes and is composed of the district presidents or their personal representatives. It was expected that the subcommittee would make its report Thursday.

Three fundamental principles on which the subcommittee is working were laid down by Hayes in addressing the policies committee, which is composed of 200 mine workers' representatives from all over the country. They are:

A six-hour day.
A five-day week.
A substantial increase in the existing wage scale.

Nationalization of the coal mines, suggested by Hayes, will not be taken up at the joint conferences, it was thought. It is understood to have advanced this suggestion in view of agitation for such action by the British government.

Total Casualties Announced Now 275,836;
171 Dead and 404 Wounded In Today's Lists

The War Department gave out four army casualty lists today, which contained 575 names, bringing the total for the army up to 268,660. No marine corps list was issued, but the total previously reported for that arm of service was 5,923. The total for both army and marine corps so far announced is now 275,836.

The army lists issued today contained the names of 6 killed in action, 3 died from wounds, 51 died from accident and other causes, 1 died in airplane accident, 110 died of disease, 11 wounded severely, 65 wounded to a degree undetermined, and 328 wounded slightly.

LOUISIANA TO BECOME
CATTLE 'TICKLESS' STATE

Louisiana will become a cattle tickless state this year, Department of Agriculture experts said today.

This means the quarantine restrictions, laid years ago, which prevented complete freedom in shipments from the State, will be lifted.

Dr. R. A. Ramsay, chief of the Tick Eradication Bureau, is scheduled to make the chief address March 20, when the Texas Cattle Raisers' Association meets at Dallas to plan future eradication measures in their State. Texas has been quarantined since 1906 because of the tick, which kills many animals yearly and greatly reduces the value of all that recover from fever carried by ticks.

SPRING FEVER SWELLS
DEMAND FOR GARDENS

District residents are responding to the springtime call of the hoe and the spade.

Applications for garden plots in the National Capital are being received in ever-increasing numbers by William C. Hall, 220 Fourteenth street northwest, District garden agent of the Department of Agriculture.

Efforts are now being made to obtain additional garden land for the gardeners. There are about sixty vacant lots still available for Washingtonians who wish to raise their own lettuce, corn, radishes and other vegetables this spring and summer.

BAND CONCERTS

BY SOLDIERS' HOME BAND ORCHESTRA IN STANLEY HALL THIS EVENING, BEGINNING AT 8:15 O'CLOCK.

WOULD MAKE TURKS
PAY FOR WAR LOSS

WESTBORO, Mass., March 19.—An effort to make the Turkish government pay for property owned by Americans citizens in Asia Minor, and destroyed during the war, has been started by Harutunio Tashjian, a resident of this place.

At the request of the State Department at Washington, Tashjian today filed with the Secretary of State a bill of particulars, concerning property he claims to have owned at Harpool, Turkey, which he says was confiscated. The bill which he asks the United States to collect from the Turkish government amounts to \$11,000.

This is said to be the first case in which a native of Armenia, who is a citizen of the United States, has begun proceedings to recover from the Turks for destruction of property in Asia Minor.

FLU TAKES 905 IN WEEK.
There were 905 deaths from influenza during the week ending March 15, according to reports to the Bureau of the Census. During the week ending March 8 there were 942 deaths; March 1, 983, and February 22, 914. The weekly average in March of last year was 81.

ADVERTISMENT

Dandruff Soon
Ruins the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

A VERY TIMELY EVENT

The March Sale of
Curtains, Upholstery and
Drapery Materials

You will not waste time wondering if you can have the old hangings and covers dry cleaned, if you visit our Great March Sale. Such great reductions for beautiful new drapery and upholstering fabrics that you can have entire new furnishings at the cost of renovating the old. Look over the following timely Springtime items—and note the very special prices.

Curtains for Every Room in
the House

The finest handmade Lace Curtains, such as exquisite real filet lace mounted on fine voile, and Marie Antoinette and Renaissance laces in white or ecru shade, mounted on net to form handsome lacet Arabian Curtains.

Attractive Curtains of fine voile and Marquisette, combined with beautiful lace edgings and insertions or showing lace medallions.

All taken from regular stock and marked a third and a half less their values in today's market.

Specially Priced, \$3.75 to \$45 Pair

Lace Window Panels—A good assortment, including handsome filet Cluny, Venetian and antique laces and fine embroidery, also some very desirable machine-made laces, mounted on voile. Priced 1-3 to 1-2 less than formerly. Special at \$3.67 to \$12.35 each.

Curtain Nets—Filet weaves, plain and decorative nets and bobbinet lace designs, as well as some imported all-over floral nets. Special at 85c yard.

Filet and Cluny Laces—Edgings, insertions and squares of handmade filet and Cluny lace, and some machine-made novelty laces; fine and heavier weaves in ecru, ivory and white. Special at 1-3 to 1-2 less former prices.

Pillows, Table Covers, Scarfs
at Special March Sale Prices

Pillows—Cretonne, silk and velvet, selected because of their attractiveness from our great display of pillows. Special at 1-3 less former prices.

Moquette and Velvet Table Scarfs—Rich oriental patterns and colorings; also plain velvet and velour scarfs, trimmed with braid. Special at \$3, \$3.75 and \$5.

Japanese Tinsel Table Covers—The popular dragon design in delightful color blindings on Japanese tinsel cloth; round shape only. Special at 1-3 less former prices.

Upholstery Department, Fifth floor.

Draperies and Upholstering
Materials

At Special March Sale Prices

Silk and Cotton Damask—Rich striped designs in mulberry, green, navy, putty, several shades of rose and black, many also showing beautiful designs in broad effects, and several in gold. A soft draping satiny material ideal for all upholstery hangings, wall coverings, pillows and a variety of other uses. 50 inches wide. Special at \$3.25 yard.

Cotton Tapestries—Artistic patterns and colorings, light and dark, in floral and conventional designs, suitable for portieres, draperies and upholstery. Two shades of rose-colored cotton velvet included. 50 inches wide. Special at \$2.65 yard.

Poplins, Repps, Armures and Case-mement Cloths—Selected pieces in plain crepe and figured weaves, with a good showing of rose, green and brown; desirable for upholstery, drapery, curtains and portieres. 50 inches wide. Special at 75c to \$1.50 yard.

Plain and Fancy Silks—Short lengths of plain and fancy drapery silks, much used for lamp shades and fancy work, as well as draping. Special at 1-3 less former prices.

Cretannes and Chintzes—Choice of light and dark colorings and different designs; appropriate for slip covers, curtains, bed covers, cushions, dromeries bags and other uses. Special at 45c yard.

Fine Cretannes and Printed Linens—Many florals in all-over and broken striped effects. Jap designs, bird patterns and oriental motifs in the prettiest color combinations, bright and more neutralized. Special at 82c yard.

Plain and Fancy Colored Draperies—Novelty madras weaves in several colorings; plain, plaid and floral effects. 36 to 50 inches wide. 35c, 65c and \$1.50 yard.

The Effect of By-Products On
Food and Livestock Prices

IF a thousand pound steer could be used for nothing but its food parts, its meat, sold at regular prices, would not bring what the steer cost. If its three hundred and fifty pounds of inedible parts were thrown away, *either producers would have to take lower prices for animals or consumers would have to pay more for food.*

Hence, Armour and Company must find a way to use and sell every ounce of all livestock.

One of the fundamental benefits of big business is that it has the resources to make scientific investigations in developing new products and the organization to sell them when they have been developed.

There is more imposed upon us than merely the marketing of meat. The beef animal referred to above affords an instance—35% of our efforts in manufacturing and selling have to do with parts that are not food at all. Multiply this one steer by millions. Think of the problem of finding markets for glue, curled hair, hides and pelts, wool, lubricating oils, soaps, banjo strings, pharmaceutical preparations, sand-paper and many other by-products in almost unending quantities. This would be difficult for a concern with lesser facilities; no large organization, even, could accomplish the task without years of endeavor in upbuilding many kinds of markets.

To produce foods economically, we not only have to be in many lines of business but we must also be large factors in each of these many lines. For, upon our ability to profitably market the by-products, depends our ability to buy and sell foods at our present small margin of profit.

But packer by-products relate to more than food. They affect the everyday life of all. They give employment and wages to many additional thousands of workers and they are used in every business and craft, and relate to every industry in the world.

Thus it is that when you purchase Armour Products you are doing two important things:

You are helping assure producers of fair prices which encourage them to raise the food supply of the future.

And you are definitely securing for yourself utmost value in the food you eat.

ARMOUR AND COMPANY
CHICAGO

Especially for Baby's Comfort
A Stationary Go-Cart
For the Older Child

An ideal Go-Cart designed especially for the comfort of the older child who has graduated from the baby carriage.

It is of attractive design, as shown in the illustration, natural finish reed body and of light but durable and strong construction.
